### Work History

2014 - 2015  
Manufacturing Operator  
GLOBALFOUNDRIES

### MISSION STATEMENT

To make valuable contributions every day to any level of application development from database design to front-end presentation while living in Japan and learning the Japanese language and culture.

### PROFESSIONAL EXPERIENCE

#### LE WAGON TOKYO

Full Stack Development | June 2018 - September 2018

- Intense 9-week Full Stack Bootcamp learning the whole Rails stack from Ruby to SQL to Bootstrap.
- Special Emphasis on MVC architecture.
- Practiced setting up apps in production using Heroku.
- Took on the lion's share of a group project acting as Lead Developer and Project Manager.
- Jumpstarted my career by learning with a highly focused group of individuals and developed a close group of trusted peers.

### PORTFOLIO

RSSHUB -- All your subscriptions in one place.

<https://rsshub.com>

<https://github.com/HenryHaller/RSSHUB>

Problem:

Some content is too spread out (Patreon, SoundCloud, individual websites). Sometimes only streaming is available, not downloading mp3s.

Solution:

A website that collects all content on a single page for easy downloading.

Technologies Used:

Backend: Ruby on Rails/PostgreSQL/REST API

Frontend: VueJS

### EDUCATION

McGill University '13

Bachelor of Arts in Political Science
